

LUXEMBOURG SUSTAINABILITY ENABLER ECOSYSTEM

How to use the sustainability enabler dashboard

A

See if a company or public entity is part of the mapping

- 1 Type the entity name in the “Search by enabler name” box. When the company appears in the results list, select it by ticking the checkbox
- 2 Hover with your mouse over the entity’s name in “List of enablers” to see its description and classification (type of enabler and sustainability topics)
- 3 When clicking on the entity’s name, you will be redirected to its website

B

Find a type of enabler (e.g. a technology provider) offering specific solutions (e.g. low carbon)

- 1 Filter “Types of enablers” by selecting “Technologies Providers”
- 2 Filter “Sustainability topics” by selecting “Low-Carbon Economy”
- 3 See the results in “List of enablers”
- 4 Hover with your mouse over any enabler name in “List of enablers” to see its description and classification (type of enabler and sustainability topics)
- 5 By clicking on the entity’s name, you will be redirected to its website

C

Find enablers in my location targeting a specific market (e.g. Real Estate & Construction)

- 1 Click on a location in the map “Enabler locations (by LU city)”
- 2 Filter “Targeted markets” by selecting “Real Estate & Construction”
- 3 See the results in “List of enablers”

Initiate a new search

Click on “Reset all filters”

D

See the enablers linked to specific “Sustainability Development Goal”

- 1 Click on an SDG in the “sustainability development goals” section
- 2 See the results in “List of enablers”
- 3 Click on “Reset all filters” to start a new search

E

Request modifications regarding information about an entity that I represent

Please let us know if:

- You think that your entity is relevant and should be included in the mapping,
- Your entity is included in the mapping and you would like to see it removed
- Your entity is included but not correctly classified (type, topics, etc.)
- You want to correct any other information regarding your entity
