

# NIUM

Nutrition data science made easy

**Alberto Noronha, CEO**

Luxembourg  
13/01/2020

# Diet-associated diseases are on the rise

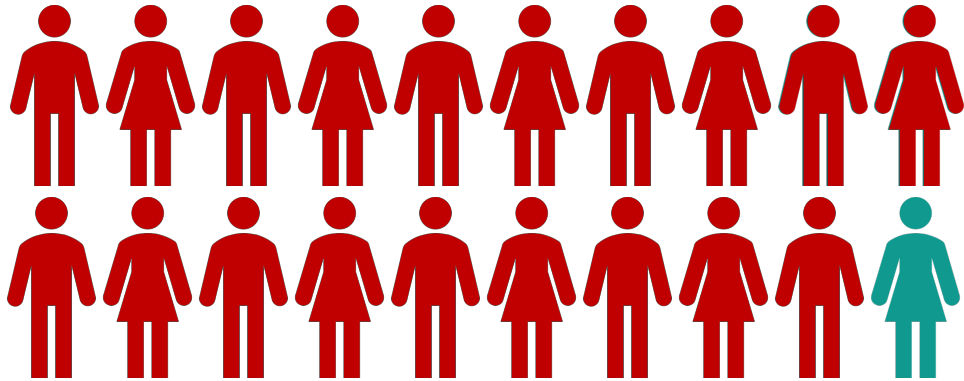

Overweight affects 30-70%  
Obesity affects 10-30% of adults

Diabetes affects 5% of population (25% prediabetic)  
70% of population with high lipid levels  
67% of population overweight (BMI > 25)

# Dieting is hard

8/20 people stop their diet before the end of week

After 1 year only 1 out of 20 are following the diet

Nium makes **nutrition science** actionable and practical

## Metabolic modelling platform

Using complex metabolic networks to better understand metabolic impact of food products

Using complex biological data such as gut-microbiome and other metabolic markers

## Meal recommender system

SaaS for personalized nutritional recommendations

Pluggable to existing solutions or deployed as a white-label application

# Looking for clients and collaborators

Agrofood industry

Research and Healthcare institutions

Pharma

Retail

## Supported by

## Partners
